

Classification of the Soils

Madison County, Alabama

Soil name	Family or higher taxonomic class
Abernathy-----	Fine-silty, siliceous, thermic Fluventic Umbric Dystrochrepts
Allen-----	Fine-loamy, siliceous, semiactive, thermic Typic Paleudults
Baxter-----	Clayey, kaolinitic, thermic Typic Paleudults
Bodine-----	Loamy-skeletal, siliceous, semiactive, thermic Typic Paleudults
Bruno-----	Sandy, mixed, thermic Typic Udifluvents
Capshaw-----	Fine, mixed, semiactive, thermic Oxyaqueic Hapludalfs
Colbert-----	Fine, mixed, thermic Vertic Paleudalfs
Colbert-----	Fine, smectitic, thermic Vertic Hapludalfs
Cookeville-----	Fine-silty, siliceous, thermic Typic Paleudults
Cumberland-----	Clayey, kaolinitic, thermic Rhodic Paleudults
Decatur-----	Fine, kaolinitic, thermic Rhodic Paleudults
Dewey-----	Fine, kaolinitic, thermic Typic Paleudults
Dickson-----	Fine-silty, siliceous, semiactive, thermic Glossic Fragiudults
Dowellton-----	Fine, mixed, semiactive, thermic Vertic Epiqualfs
Dunning-----	Fine, mixed, thermic Vertic Ochraqualfs
Egam-----	Fine, mixed, active, thermic Cumulic Hapludolls
Ennis-----	Fine-loamy, siliceous, semiactive, thermic Fluventic Dystrudepts
Erty-----	Clayey, kaolinitic, thermic Typic Paleudults
Etowah-----	Fine-loamy, siliceous, semiactive, thermic Typic Paleudults
Greendale-----	Fine-loamy, siliceous, thermic Fluventic Dystrochrepts
Guthrie-----	Fine-silty, siliceous, thermic Typic Fragiqaualts
Hamblen-----	Fine-loamy, siliceous, thermic Fluvaquentic Eutrochrepts
Hartsells-----	Fine-loamy, siliceous, thermic Typic Hapludults
Hermitage-----	Clayey, kaolinitic, thermic Typic Paleudults
Hollywood-----	Fine, montmorillonitic, thermic Typic Pelluderts
Holston-----	Fine-loamy, mixed, thermic Glossic Fragiudults
Holston-----	Fine-loamy, siliceous, thermic Typic Paleudults
Humphreys-----	Fine-loamy, siliceous, thermic Fluventic Dystrochrepts
Huntington-----	Fine-loamy, siliceous, thermic Dystric Fluventic Eutrochrepts
Huntington-----	Fine-silty, siliceous, thermic Fluventic Umbric Dystrochrepts
Jefferson-----	Fine-loamy, siliceous, thermic Typic Paleudults
Lawrence-----	Fine-silty, siliceous, thermic Glossaqueic Fragiudults
Lee-----	Fine-silty, mixed, thermic Fluvaquentic Dystrochrepts
Lickdale-----	Fine-silty, mixed, thermic Fluvaquentic Dystrochrepts
Linside-----	Fine-silty, mixed, thermic Fluvaquentic Dystrochrepts
Linker-----	Fine-loamy, siliceous, thermic Typic Hapludults
Lobelville-----	Fine-loamy, siliceous, thermic Fluvaquentic Dystrochrepts
Lobelville-----	Fine-silty, mixed, thermic Fluvaquentic Dystrochrepts
Melvin-----	Fine-silty, mixed, thermic Fluvaquentic Dystrochrepts
Monongahela-----	Fine-loamy, mixed, thermic Glossic Fragiudults
Muskingum-----	Loamy, siliceous, thermic Lithic Hapludults
Ooltewah-----	Fine-silty, mixed, thermic Fluvaquentic Dystrochrepts
Pearman-----	Clayey, kaolinitic, thermic Typic Hapludults
Prader-----	Fine-loamy, mixed, nonacid, thermic Typic Fluvaquents
Robertsville-----	Fine, mixed, thermic Vertic Ochraqualfs
Rockland Limestone Hilly-----	Clayey, mixed, thermic Lithic Hapludolls
Rockland Limestone Rolling-----	Clayey, mixed, thermic Lithic Hapludolls
Rockland Limestone Steep-----	Clayey, mixed, thermic Lithic Hapludolls
Sequatchie-----	Fine-loamy, siliceous, thermic Humic Hapludults
Stony Colluvium-----	Fine-loamy, siliceous, thermic Typic Paleudults
Stony Rolling Land-----	Clayey, mixed, thermic Lithic Hapludolls
Stony Smooth Land-----	Clayey, mixed, thermic Lithic Hapludolls
Stony Steep Land-----	Loamy, siliceous, thermic Lithic Hapludults
Taft-----	Fine-silty, siliceous, thermic Glossaqueic Fragiudults
Talbott-----	Clayey, kaolinitic, thermic Typic Paleudults
Talbott-----	Clayey, mixed, thermic Typic Hapludults
Tupelo-----	Fine, mixed, thermic Vertic Paleudalfs
Tyler-----	Fine-silty, siliceous, thermic Glossaqueic Fragiudults
Wolftever-----	Clayey, mixed, thermic Aquic Hapludults
